

SINGH BANTONY UPENDRA

MERN Stack Developer | React Developer

Surat, Gujarat | 9104153677 | bantony.singh.dev@gmail.com

<https://www.linkedin.com/in/bantony-singh-2a7717428/> | <https://github.com/Bantony14> | <https://bantony-portfolio.vercel.app/>

PROFESSIONAL SUMMARY

Entry-level **MERN Stack Developer** with a strong focus on **React** and frontend development, experienced in building responsive web applications using **React, JavaScript, TypeScript, Redux Toolkit, React Router, and Tailwind CSS**. Hands-on experience with **Node.js, Express.js, MongoDB, REST APIs, JWT authentication**, and third-party integrations through full-stack projects, along with automated testing using **Jest and React Testing Library**.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Redux Toolkit, React Router, Context API, React Hooks, Tailwind CSS, Vite, Responsive Design, State Management, Reusable Components, Form Validation

Backend: Node.js, Express.js, MongoDB, Mongoose, REST APIs, JWT, Authentication & Authorization, RBAC, bcrypt, HTTP-only Cookies, Data Encryption, CRUD Operations, Middleware

Testing: Jest, React Testing Library, Unit Testing, Integration Testing, API Mocking, Async Testing, User Event Testing

Tools & Integrations: Git, GitHub, Postman, Vercel, Cloudinary, Multer, Brevo API, Razorpay, Payment Gateway Integration

PROJECTS

RentFlow — Property & Tenant Management System (Full-Stack)

Live: <https://rent-flow-management-by-bantony.vercel.app/> | **GitHub:** <https://github.com/Bantony14/Rent-Flow-Management>

- Built a full-stack rental management platform with distinct **Admin and Tenant workflows**, using **role-based access control (RBAC)** to separate permissions and protect routes.
- Implemented **JWT authentication with HTTP-only cookies**, including a **7-day cookie expiration** for session management.
- Designed rent and payment workflows with **Razorpay integration**, including payment verification, status tracking, and automated receipt generation.
- Modeled data across **4 core MongoDB collections** (User, Room, Payment History, Receipt History) using Mongoose, with **soft delete** to preserve historical records.
- Built admin-side tenant management and full room management with **CRUD operations**, using React and Tailwind CSS.
- Applied **data encryption** for sensitive tenant fields; handled identity document and property image uploads using **Multer and Cloudinary** with private/restricted access delivery.
- Integrated **Brevo API** for transactional email notifications and maintained the project on GitHub with **115+ commits** across ongoing development.
- Implemented and tested the RentFlow **authentication flow using Jest and React Testing Library**, covering login success/error handling, loading states, form validation, user interactions, and API mocking.

FashionKart — E-Commerce Frontend Web App (Redux Toolkit Focus)

Live: <https://fashion-kart-by-bantony.vercel.app/> | **GitHub:** <https://github.com/Bantony14/Fashion-Kart>

- Built the frontend of an e-commerce interface in React, using **Redux Toolkit** for global state management alongside **React Router** for multi-page navigation.
- Structured reusable components and **Redux slices** to design a scalable store architecture, covering actions, reducers, and state flow in a real project context.
- Strengthened state-management fundamentals later applied in production-style projects like RentFlow.

EXPERIENCE

ZARA — Sales Advisor

Surat, Gujarat | Nov 2024 – Jan 2026

- Assisted customers with product selection and provided guidance based on individual requirements in a fast-paced retail environment.
- Built strong communication, customer-handling, and problem-solving skills while balancing shift work with self-directed learning in full-stack web development.

EDUCATION

Bachelor of Computer Applications (BCA)

2021 – 2024

Udhana Citizen College, Veer Narmad South Gujarat University | **CGPA: 7.43/10**

ADDITIONAL INFORMATION

- Open to **MERN Stack Developer / React Developer** internships and full-time opportunities.
- Interested in building responsive, user-focused web applications with **React** at the frontend and strong MERN stack fundamentals.
